

## Give the Gift of Savings

As the winter season quickly approaches, many of us are beginning to receive the inevitable question: what do you want for the upcoming holiday? If you've ever struggled with an answer, there is no need to worry anymore. With [Ugift®](#), IABLE account owners have the ability to request a meaningful gift – a contribution to their IABLE account.

[Give a Gift](#)

Ugift is a free and easy way to support the loved ones in your life who are living with a disability. Account owners have the ability to invite others to make a contribution to their IABLE savings by logging into their account, locating their specific code and distributing it to family and friends who can choose to gift the money electronically or by mail. If you want to make it even more special, Ugift provides [printable certificates](#) for various occasions.

The money gifted to a family or individual through Ugift is invested into the account owner's IABLE plan. Plus, your contribution will not impact your loved one's ability to receive assistance through benefit programs like Supplemental Security Income (SSI) and Medicaid. There are no additional fees for using Ugift and contributors may even be eligible to [deduct their contributions](#) from their state income taxes if they are Iowa state taxpayers.

During the season of giving, contribute to a loved one's IABLE account and help them save for expenses to achieve a better life experience.
