National Disability Employment Awareness Month

Throughout the month of October, we celebrate National Disability Employment Awareness Month (NDEAM). The purpose of NDEAM is to celebrate the contributions of America's workers with disabilities and provide education on disability employment issues. As part of our October celebrations, we've created a [toolkit](#) for employers and working individuals with disabilities.

IABLE's Employment Toolkit includes strategies and tools that provide information about IABLE and how it relates to employment. Employers can share information on IABLE to support a diverse work environment. Whether their employees are living with a disability or supporting a loved one with a disability, an IABLE account can help them achieve their version of a better life experience.

[Help Your Employees Achieve a Better Life Experience \(PDF\)](#)

Working individuals with a disability can benefit from looking over instructions to implement payroll direct deposit and the benefits of utilizing an ABLE account while employed, including information about [ABLE to Work](#). ABLE to Work allows account owners who are earning an income the possibility to contribute funds beyond the \$15,000 annual contribution limit - up to an additional \$12,760 per year!

Knowledge is power when it comes to employees and employers who may benefit from IABLE. I'm excited to share these resources with you, which can be found on our website, [IABLE.gov](https://www.able.gov). Check it out to view the toolkit and other ways we are celebrating NDEAM.
